

BRIEF CEREMONY AS DOORS OPEN

Trustees, Physicians And Women Present For Hospital Opening.

DEDICATED WITH PRAYER

John M. Warner, Donor, And Annie M. Warner Present. Nurses Marvel at Modern Building And Equipment.

With brief but impressive ceremonies at three o'clock this afternoon the Annie M. Warner Hospital was officially opened in the presence of the members of the Board of Women's Auxiliary and county physicians. John M. Warner, donor of the building and grounds, and Mrs. Annie M. Warner, his wife, were present. Dr. J. A. Singmaster, president of the Board of Trustees, offered the dedicatory prayer and made a short address. Rev. Paul R. Pontius read the scriptures.

Every room in the Hospital was ready this morning to receive patients, and despite the dull day there was a cheerful atmosphere about the place. As soon as the nurses arrived Monday they donned their professional garb and spent the remainder of the day dressing the beds. So far as the nurses and physicians were concerned, the institution was ready for patients.

The opening of the hospital is the culmination of two years of strenuous work on the part of the Trustees, Woman's Auxiliary, banks of the county and numerous individuals who took a keen interest in the task of providing a modern hospital for the county.

Never has there been a public welfare movement that met with the spontaneous and generous response as was the campaigns conducted to raise funds for the maintenance and equipment. Approximately \$80,000 have been subscribed by residents and former residents of the county. More than \$30,000 was subscribed in the first campaign for money to equip the institution and over \$40,000 was given in the endowment fund movement by the banks of the county. To these amounts there have been added many gifts not in the form of money that will boost the total amount well over \$80,000.

While the endowment fund asked for by the trustees was not raised in full, indications are bright for the provision of endowment funds. The Adams County Commissioners have voted \$2,000 to its support and if the bill presented to the State Legislature by Representative Elgin is passed the State will give \$6,000 a year for the next two years.

Apparently not an item of equipment had been overlooked and the nurses, Miss Stout and Miss Hart, voiced the sentiments of the recent visitors to the institution when they declared it almost unbelievable that such a modernly equipped hospital

TRACTOR TURNED TURTLE

Harry Bixler Sustained Fracture Of Leg In Accident.

While assisting with the scraping of the Bonneville road, leading to Hanover, on Monday morning, Harry Bixler, aged about forty years, who lives a mile from the town, met with a painful accident, when the tractor he was riding turned turtle, resulting in a compound fracture of his left leg, about six inches above the knee.

Work had only started on the road under the supervision of E. L. Gulden, superintendent, and about twenty feet of roadway scraped, when the tractor, driven by Bixler, which is said to have been too light for the scraper attached, turned completely over and fell on Bixler.

Dr. R. H. Lindaman, of Littlestown, was immediately summoned, and after dressing the wound, ordered Bixler removed to the West Side Sanitarium, York. E. L. Gulden then took the man to York by automobile.

BOARD NAMES NEW HEALTH OFFICER

Earl Deardorff Selected to Succeed David M. Crist, Resigned.

At a special meeting of the Board of Health here Monday night, Earl Deardorff was selected to succeed David M. Crist as health officer and secretary of the Gettysburg Board.

Mr. Deardorff, a resident of West Middle street, was selected from a list of seven applicants for the position made vacant by the resignation of Mr. Crist who will leave Gettysburg in the near future for Walkersville, Maryland, to enter the general merchandise business. Before departing from town Mr. Crist will instruct the new health officer as to the health laws and the best methods of enforcing them.

John W. Brehm, president, Charles Hartzell, Charles Speese, Ray Rupp and Dr. H. M. Hartman were all present at the Board meeting which was held in the Chambersburg street tailor shop of the head of the organization.

The position of health officer carries with it a salary of \$40 per month. At one time recompense was \$80 per month, half paid by the borough of Gettysburg and half by the State Department of Health. Then, however, the duties of the Gettysburg health officer included supervision over a three mile area outside of town. In recent years the Gettysburg health officer has paid attention to the borough alone while the three mile area has been in charge of Dr. Chester G. Crist, Adams county medical inspector.

Mr. Deardorff will take up his new duties on April first and will serve in the capacity of health officer and secretary of the Board until April 1, 1921. At that time he may be re-elected if the Board so desires.

AT SCRANTON COURT

Adams County Men Charged With Violate Act Violations.

J. H. Bream, Robert Smith and John Shultz, of Gettysburg, and William Lower, of Table Rock, were in Scranton Monday attending United States district court there. All four men are charged with violations of the Volstead act.

As no report was issued Monday concerning their case it is expected they will appear before the court today.

TWO SALES AT ONE TIME

A pillow slip and food sale for benefit of the organ fund will be conducted in the Photoplay theater building Saturday morning by the Trinity Circle of the Reformed Church. The sale commences at 10 o'clock and will be held in the same place and at the same time as the Citizens Trust Company rummage sale for benefit of the hospital.

MEASURE TO SAVE LIGHT DEFEATED

Strong Opposition By Farmers Causes Heavy Vote Against It.

CITY AGAINST COUNTRY

New Measure Would Authorize Loan of \$50,000,000 For Highway Purposes. Two Bills Deal With Law.

The Edmonds daylight saving bill was defeated in the House Monday night 142 to 56.

Petitions urging the defeat of the bill were circulated among the farmers of Adams county and more than a thousand names were on the list that was presented to Representative Elgin and Senator Long. Similar petitions from practically every county in the state were presented to the various legislators and were influential in the defeat of the bill.

The opposition to the bill was led by Mr. Jordan, Lawrence, who referred to the antagonism of farmers, who would be obliged to expend \$2,000,000 more than they otherwise would. He argued that daylight saving results in people arising too early and staying out too late. He said there was no objection to be made to persons or firms or corporations allowing their employees to go to work an hour earlier. He referred to the necessity of taking into consideration the interest of the farmer, who had suffered great financial loss through the war period.

It was not his purpose to align the country against the city. He believed, however, the interest of all should seriously be considered in voting on the measure. Mr. Edmonds, Philadelphia, called the attention of the Lawrence assemblyman to the inconvenience of workmen who must travel long distances to reach their work and who are denied periods of recreation because of the late hour at which they reach their homes.

Mr. Hess, Lancaster, opposed the bill on the ground that the benefit to industrial workers would not overcome the loss caused to farmers.

The Edmonds bill provided that clocks be turned forward an hour at 2 o'clock in the morning of the second Sunday of April and back at the same hour on the second Sunday of September.

The constitutional convention bill was reported to the Senate Monday night from the appropriations committee and passed for the first time with a series of changes. The

STUDENTS GIVE TO HOSPITAL

Without Effort Sum of Over \$200 Collected For Emergency Fund.

Without any urging or assistance on the part of the faculty, students at Gettysburg College have collected and turned into the treasurer of the Emergency Fund of the Annie M. Warner Hospital \$202.50. The plan for collecting funds for the hospital was suggested to several students by Harry Holtzworth, one of the directors of the Hospital and the work was immediately started with J. F. Richards, R. G. Mumma, L. E. Woodward and W. P. Livengood in charge of the various groups of collectors at college.

When Mr. Holtzworth suggested that the students would want a part in giving to the fund that would make possible the opening of the Hospital, the first figure fixed as a goal by the students themselves was \$300. That this amount will be reached before the campaign is finished there is no doubt, for there are a number of men who have not had the opportunity of contributing.

This drive for funds among the students which was carried on without the knowledge of the officials of the hospital was received Monday by the Secretary, William Arch McClean. Dr. J. A. Singmaster, president of the hospital association, when informed of the gift from the students commended them for the spirit shown and declared theirs was one of the most appreciated gifts received by the Emergency Fund for it had come unexpectedly.

Although no small sums were asked of the students by the collectors, there were practically no refusals, the entire student body seeming to appreciate the value of the hospital to them.

WHEAT AT NEW LOW

Local Buyers Now Offering Only \$1.45 a Bushel.

Wheat dropped to the lowest price in three years on the local market today when buyers offered \$1.45 a bushel. At several times since the depression in the price of farm products prevailed, the price of wheat fell as low as \$1.50 a bushel, but not since the beginning of the war and the advent of high prices has this product reached the present figure.

Prospects for a good wheat yield and large amounts unsold from last year's crop are given as the cause of the further decline.

DIES AFTER 45 YEARS' PRACTICE

Dr. Charles Edward Smith Passes Away in Harrisburg Hospital.

CONFINED FOR 14 WEEKS

Center Mills Physician Was Member of Several Medical Organizations, Masons And United Brethren.

The life of a man who spent forty five years as a practicing physician in the Center Mills district of Adams county came to a close in the Keystone hospital, Harrisburg, Monday night, when Dr. Charles Edward Smith died from a complication of diseases.

One year ago Dr. Smith, who was in his seventieth year, began to decline steadily in health. Fourteen weeks ago he left Center Mills for the Keystone hospital and was confined there continuously until death came.

Dr. Smith, a son of Rev. Jacob Smith and Eliza Smith, deceased, was born in York city and spent his boyhood days there. He graduated from the Hahnemann medical school in Philadelphia and then took up the practice of his profession at Center Mills. During his service of nearly a half century among the people of that community he gained an unusually fine reputation and was generally considered as one of the leading physicians and citizens of the central portion of the county.

He was a member of the Adams County Medical Association, the Central Homeopathic Society of Pennsylvania and Good Samaritan Masonic Lodge 536 of Gettysburg. For many years he served as trustee in the Bethlehem United Brethren Church of Center Mills.

One daughter, Mrs. Philip Houck, of Center Mills, and one brother, Dr. Harry Smith, York county, survive him. His wife preceded him in death six years ago.

Funeral services at the house Friday morning at 10 o'clock conducted by Rev. Harry Kottler, United Brethren pastor of Biglerville, assisted by Rev. W. O. Dickson, Mechanicsburg, a boyhood friend of Dr. Smith.

Interment in the Center Mills cemetery.

SPELLING LIST OVER 200

More than one hundred more successful spellers in the district contests last Saturday were reported today to Professor H. Milton Roth, county superintendent of schools, at his office in the court house this morning. The total of spellers who will compete for the county championship here next Saturday exceeds two hundred with many precincts unreported.

A complete list of the successful spellers will be made public later in the week by the county superintendent.

CROSS COUNTRY TRIP TOOK A YEAR

Californians Travel By Horse And Buggy. Going Back Same Way.

Elmer Jacobs, former soldier stationed at Camp Colt here in 1917, and his cousin, Earl Eisenhour, both of Los Angeles, California, are soon to start from Biglerville on the return trip of their transcontinental jaunt, traveling by horse and buggy. The young men arrived in Biglerville Monday evening after having been on the road nearly one year. They started from Los Angeles April 3, 1920 and followed the southern transcontinental route. They will return to California by way of the Lincoln Highway.

Mr. Jacobs, who spent eighteen months in France and was severely gassed, decided early last year that a cross-country sight seeing tour would be the best health cure he could find. He and his cousin bought a horse and buggy and equipment for camping out and started for the east with the former camping ground here as their objective. The journey was completed in forty eight weeks.

The return trip, Mr. Jacobs believes will be made in a shorter time and they are counting on being at home by Christmas of this year. The entire trip to Adams county was made with the same horse. A trade was made in Biglerville, and a fresh steed will start the westward tour. On average days the tourists make from thirty to thirty five miles. Nights when they are unable to reach towns they are equipped to camp along the roadside and in warm weather they prefer camping out and cooking their own meals than to be cooped up in hotels.

During the entire journey they encountered no difficulties and other than a description of beautiful scenery they recall nothing unusual in their year of travel.

Thousands of high powered motor cars have passed the horse-drawn tourists and they have passed many automobiles out of commission. They have no desire to change their mode of travel and declare they will go their slow but sure method until the gates of Los Angeles are reached again.

REJECT WAGE CUT

(By Associated Press)

New York, Mar. 15—In flatly rejecting the proposed wage cut amounting to 17½ to 22½ per cent, twenty nine labor representatives arose one after another and declared they did not believe the reduction justifiable.

The labor men said the next move was up to the roads. If the cut did become effective April 1, they said, labor would then appeal to the labor board.

Company officials told Union leaders the road would abide by any decision reached by the board.

CLARA HAMON LED OUT WEeping

Remark By Attorney Causes Furore in Oklahoma Murder Trial.

COURT QUICKLY ADJOURNS

Defendant Composed as She Takes Stand. Says Hamon Was Drunker And Crazier Than Ever.

(By Associated Press)

Ardmore, Okla., March 15—Clara Hamon, on trial charged with the murder of H. L. Hamon, was led from the courtroom in tears today after counsel for the defense attacked a remark made by H. H. Brown, state counsel referring to the defendant's mother as an "old woman." Clara's mother and sister broke into tears and furore resulted when an attempt was made to clear the hoodlum after applause greeted the statement of the counsel for the defense.

Several minutes after clearing the courtroom of scores of persons, court adjourned for an hour after the attorneys explained their remarks which created the disturbance.

Clara Hamon took the witness stand today. The defendant was composed and spoke in a well controlled voice. She said she was twenty nine years old. She said she had known Mr. Hamon "for many years, I don't know just how many, ever since I was a school girl at Lawson."

The defendant's voice broke as she told the court that Colonel Hamon hurt her on the evening he was shot, tears came into her eyes and her voice dropped lower and she said:

"He was drunker and crazier than he had ever been in all the years I had known him."

When the defendant reached the point of her story of the actual shooting she left the witness stand and, taking the pistol with which Hamon was killed, the shot was fired.

"I didn't go to do it. The pistol went off when he struck it or I pulled the trigger or something. I know not what," she said.

STOCK REPORT

Active Stocks Decline and Standard Rails Harden.

(By Associated Press)

New York, Mar. 15—Active stocks extended their declines in the early trading on the stock market this morning, especially United Fruit, Crucible, Pan-American petroleum, Reading and hides and leather preferred. From the lower levels, however, there were brisk recoveries of 1 to 3½ points. Mexican petroleum, Baldwin locomotive, pressed steel car, Atlantic gulf, Chandler, Harvester, American tobacco and United States steel were conspicuous in rallies. Standard rails also hardened, Reading more than retrieving its loss while Northern Pacific made moderate gains. Exchange on London was firm and call money was in free supply at seven per cent.

NEW HOSPITAL OPENS DOORS TO RECEIVE PATIENTS

CLARA HAMON TO TAKE THE STAND

Dying Man Kissed Woman, Who is Charged With Killing Him.

IS UNNERVED BY TRIAL

Jake And Clara Quarreled Before Shooting. Witness Says Hamon Wanted to be Rid of Woman.

Ardmore, Okla., March 16—Mrs. Clara L. Hamon yesterday testified as the concluding witness for the State in the case of Clara Smith Hamon, charged with the murder of Jake L. Hamon, former Republican National Committeeman from Oklahoma. Nearly a score of witnesses for the defense were examined, and it was announced the defendant herself would take the stand today.

Mrs. Hamon had been under a physician's care since Friday, when she was unnerved by the presentation in evidence of the blood-stained undergarments her husband had worn on the night he was shot, and court also took an unusually long recess at noon yesterday to enable her to regain her composure. Her testimony was brief and related to one or two occasions on which she visited Oklahoma and of her meetings with her husband and Clara Smith Hamon.

Tried To Get Rid of "Clara"
Frank L. Ketch, business manager for Hamon and now administrator of the estate, testified at length at the morning session of court, relating conversations he had had with Hamon after the shooting and of steps taken to induce Clara Smith Hamon to leave Oklahoma.

"Give Clara some money and have her get away," Ketch quoted Hamon as saying. He added that he gave the woman his personal check for \$5,000, later regaining that amount from the Hamon estate.

Ketch identified a contract signed "Clara Smith" releasing Hamon from all claims, and he also identified two letters as having been written by the defendant.

Deputy Sheriff Ballew, one of the defense witnesses, said he had been with Sheriff Barrett at the hospital the day before Hamon died, and had heard Hamon say he did not want Clara prosecuted.

Miss Ella Rission described lights in the hall and on the street, which illuminated Hamon's room at her hotel, where Hamon was shot. She said she since had seen a man raise a chair with the regular room-lights out, and that the action was plainly visible by the street and hall lights.

Had Quarrel Outside

George Warner, a boarder of Ardmore, testified to having seen Mr. Hamon and Clara in front of the hotel between 6 and 7 o'clock.

"I saw Clara drive up and join Mr. Hamon, who jerked her into a chair and asked: 'Where have you been?'" Warner testified.

"Do not be cursing me, Mr. Hamon," he quoted Clara as having replied. He further testified that after this Clara went into the hotel and Jake followed shortly.

Rosa Cannon, also a nurse who attended Hamon, said she worked from 7 to 7, and that she attended no other patient. She said she called Clara Hamon about 8:15 on Monday and Clara soon came to the hospital.

Hamon, On Death Bed, Kissed Her

Miss Cannon testified Hamon called for Clara and that when Clara came Hamon held out his arms, drew her into them and kissed her. The nurse said when Clara left, Hamon asked her to return in the afternoon.

TUNNEL IS PROBLEM

Question of Ventilating Vehicular Tunnel is Difficult.

(By Associated Press)

Washington, March 15—Further investigations on ventilation of the projected Hudson River Vehicular Tunnel between New York City and New Jersey are being made by the Bureau of Mines in co-operation with the tunnel commissions of both states. The main problem presented is that of rendering the air in the tunnel safe for drivers while hundreds of automobiles are exhausting gases from their motors.

The Bureau of Mines has built a model of the tunnel at Urbana, where the University of Illinois is located, and is conducting experiments to determine the best method of moving the required amount of air through the tunnel.

FIVE PASS TESTS

In the district spelling contest held in Biglerville on Saturday afternoon, five of the eight pupils who took part in the contest qualified for the central meet at Gettysburg. Those passing were: Jean Dill, High School with 97 per cent; June Bigham, with 98 per cent; Nettie Raffensperger, with 97 per cent; Edna Ulrich, with 99 per cent and Marjorie Minter with 97 per cent.

NEGRO MURDERED CHURCH ORGANIST

Says He Had Been Drinking Gin. Heavy Guard Around Him.

Perth Amboy, N. J., March 15—George Washington Knight, negro, 22, yesterday confessed he had attacked Mrs. Edith Wilson, church organist, who was murdered near her home Saturday night, according to the police.

Knight was arrested yesterday morning at Keyport, N. J., brought here and closely questioned. His alleged confession was given out after several hours of grilling.

The fact that his clothing was bloodstained, the police declared, led to his arrest.

Knight was later arraigned on a charge of murder, and then hurried to the county jail at New Brunswick in an automobile, heavily guarded.

Robert Bates, Dick Henderson and Rogers Fault, all colored, were held as material witnesses after Knight had told the police that they had accompanied him here from Cliffwood Saturday night.

Knight told of drinking a quantity of gin, after which the four men entered into an argument. During the argument, Knight said, he left the party and met Mrs. Wilson as she was returning home. He declared she fainted when he seized her.

The confession stated that Knight had never seen Mrs. Wilson before. After the assault, he said, he boarded a trolley car and returned to Cliffwood.

BRIEF CEREMONY AS DOORS OPEN

could exist. "My dream has come true," said one of the nurses after she had made a tour of inspection. "I have often thought of a hospital where every instrument and piece of equipment was modern and where everything was just right, but I never expected to see it. The city hospitals are wonderful, of course, but all of them have equipment that has been in use for many years."

In the last few days before the opening of the Hospital contributions have been pouring in and prospects are good now that the \$5,000 Emergency Fund to be used for running expenses will be raised. Forty one hundred dollars have been contributed to date. The most recent donors are as follows:

W. C. T. U. of Bendersville, Wexville, Mt. Tabor, Aspers and Flora Dale, \$25; Bible Class of the Christ Lutheran Church, Aspers, \$25; C. J. BANK FUNDS GONE

(By Associated Press)

Columbus, Ohio, March 15—A shortage of \$124,000 has been found in the account of D. E. Fox, assistant cashier of the National Bank of Commerce of Columbus, according to an announcement today by Philip Snyder, president of the bank.

The statement said that Fox had made good \$26,000 of the amount supposed to have been taken over a long period of time. Fox will be prosecuted, it was said.

President Snyder announced the bank was fully insured and would lose nothing. Fox is married and has a small child.

BANK CLOSES DOORS

Beaver, Pa., March 15—The First National Bank of Beaver did not open its doors yesterday. The Board of Directors Sunday, with State Bank Examiner Frank Miller present, ordered the bank closed. The notice was signed by Miller as examiner in charge and was dated yesterday.

Fred Wilson, vice president of the bank said that an examination of the bank's books disclosed an irregularity. He said the bank was closed for an investigation and to protect the interests of the stockholders.

MRS. STILLMAN TO FIGHT HUSBAND

Fashionable New York Women Named in Counter Divorce Suit.

HALFBREED INDIAN GONE

Is Her Chief Witness. Question of Paternity of Son Produces Unusual Side to Case.

New York, March 15—With Mrs. Anne Urquhart Potter Stillman, defendant in the divorce suit of James A. Stillman, multimillionaire president of the great National City Bank, in retirement, her formidable array of lawyers yesterday began a fight to force the husband into the open and get him upon the witness stand in preliminary litigation.

The lawyers have begun to abandon their efforts to put the divorce case through secretly and quietly.

Home Heavily Guarded

Mrs. Stillman is living quietly at her magnificent country home in the Pocantico Hills, not far from the John D. Rockefeller estate. The Stillman place is under heavy guard.

For the time being the scene of legal action in this suit, which promises to be the most sensational in the history of America, shifts from Poughkeepsie to White Plains. Counsel for Mrs. Stillman said they would appear before Justice Morschauser at White Plains and seek to have a motion issued compelling the banker to show cause why he should not appear in open court to be questioned.

This move, it was believed, was a counter-stroke against charges made by the banker involving the paternity of Mrs. Stillman's 28-month-old son, Guy.

CHURCH ORGANIST KILLED

Evidence of Terrific Struggle. Searchers Find Body.

Perth Amboy, N. J., March 15—Attacked by an unknown man late Saturday night during a heavy fog, Mrs. Edith Wilson, 26, was strangled and beaten to death with a blackjack in an open lot within a short distance of her home here.

The young woman, who was a church organist, left a girl friend attending a theatre about 9:20, saying she was going to her home a short distance away. About 10:00 o'clock her mother became alarmed when she did not return and asked neighbors to organize a searching party.

The body was found by the searchers about midnight. The girl's skull was fractured and her skin lacerated in several places. The body was still warm when the searchers stumbled over it in the soft mud, which bore evidence of a terrific struggle.

A wisp of blonde hair found clenched in her hand was regarded as a valuable clue by the police.

TOOTH IN LUNG FATAL

Molar Slipped Down Throat During Operation.

Wilmington, Del., March 15—James B. Broad, comptroller of the Du Pont Company, died in a hospital here, from lung infection caused by a tooth which slipped down his throat during a dental operation performed a month ago.

At that time four teeth were drawn, but only three were located. The presence of the missing tooth in the lungs was discovered by X-ray last Thursday, but Mr. Broad was then so seriously ill physicians despaired of his life.

He had shown the symptoms familiar in cases of gas poisoning during the war, it was said, and was being treated for possible effects of gas administered during the extraction.

Mr. Broad has been with the Du Pont Company since 1904, and is credited with being instrumental in building up the accounting system now in use.

SPECIAL SESSION CALLED APRIL 11

Senate Leaders Receive Announcement With Satisfaction. Tariff Comes First.

Washington, D. C., March 15—April 11 was selected Monday as the date for the special session of the Sixty-seventh Congress, the first to be held under President Harding's Administration. The announcement was received with general satisfaction by Senate leaders, most of whom said they preferred that date to April 4, because of the additional week it gave them to arrange plans for the coming session.

Senator Lodge, of Massachusetts, the Republican leader, notified the Senate of the President's decision late Monday, after he and Senator Underwood, of Alabama, minority leader, had returned from the White House. They had gone to the President with a message from the Senate that it stood ready to adjourn sine die unless there was need for it to remain in session to receive executive messages or act upon additional appointments to Government offices.

The President, however, requested the Senate to meet at 11 o'clock today, when he said he expected to submit names of nominees for "important offices" vacated by resignations of Democratic appointees.

Tariff to Have Right of Way
Anti-dumping legislation to protect American industries from European competition will be rushed through at the special session of Congress under a decision reached at a conference Monday of Republican members of the Senate Finance and the House Ways and Means Committees, with Secretary of the Treasury Mellon.

RAPS SWEARING TEACHERS

Profanity on Golf Links Undesirable, Says Boston Parson.

School teachers who swear when they drive into the rough or lose a game of golf on an easy putt have been censured by Rev. A. Z. Conrad in the Park Street Church.

"Profane men should be ousted from our schools," he said. "The influence of teachers whose profanity on the golf links is unrestrained is undesirable for our children. Our school committee should choose men and women of moral aspirations."

Superintendent of Schools Frank V. Thompson replied to Rev. Mr. Conrad's criticism. "How about kicking out of the pulpit clergymen who profane it by giving utterance to such wild and irresponsible statements?" He said. "That is what should be done. To my knowledge, there are no school teachers in Boston who have the economic facilities for going to the golf links, where the gentleman seems to have gathered his information. The school department indignantly repudiates any such aspersions as Dr. Conrad endeavors to cast upon its teaching force."

DENBY PLANS CUBAN TRIP

Secretary of the Navy Denby will leave Washington Sunday for Guantanamo, Cuba, where he will witness target practice and winter battle maneuvers of the Atlantic fleet. Later he will go to Haiti, and the Dominican Republic to inspect marines stationed on the islands, and will return to Washington about April 5.

The naval secretary will make the trip South by rail to Key West, Fla., and from there he will go to the fleet base at Guantanamo on a destroyer. He will be accompanied by Captain J. K. Robinson, of naval operations, and Colonel D. D. Porter, of the marine corps. His naval aide, Commander P. W. Foote, may also accompany him.

TURN ATTENTION TO POSTMASTERS

New Appointments in 20th District Being Talked of by Politicians.

TERMS HAVE NOT EXPIRED

Although Civil Service Fixes Requirements Both Parties Have Used Them For Patronage Purposes.

With political "plums" now the center of interest and President Harding busy making new appointments attention is turned locally to the post offices in the 20th Congressional district. There are six appointive postmasters in this county, several of which have three years more to run.

Although it is not generally known the civil service law fixes certain requirements for these postmasters which are on the presidential appointment list. Nevertheless, it has been demonstrated by both political parties in the past that party affiliation is the most important factor in the selection of such postmasters and it is fully expected that such will be the case with the appointments that will be made by the next Congress.

In only one case, that at McSherrystown, an appointment will be made, for the term of office of Edward P. Poist has expired, he having been appointed January 8, 1917. The other postmasters have two and three years to run. It is possible to dismiss these postmasters for cause, it is said, and to fill the vacancies with men selected by the present administration.

The following are the list of offices, postmasters, their appointment dates and salaries in this county:

Gettysburg, Charles S. Duncan, salary \$2,800, appointed March 2, 1920, second class.

Biglerville, Harry U. Walter, salary \$1,600, appointed October 17, 1912, third class. (Made presidential January 1, 1920).

Littlestown, Elmer D. Buckley, salary \$2,000, appointed August 20, 1919, third class.

East Berlin, Noah B. Sprengle, salary \$1,300, appointed July 14, 1914, third class. (Made presidential July 1, 1920).

McSherrystown, Edward F. Poist, salary \$1,400, appointed January 8, 1917, third class.

New Oxford, Theodore E. Warner, salary \$1,800, appointed August 5, 1919, third class.

To be eligible for examination for a position as postmaster at an office of the first, second, or third class, an applicant must be a citizen of the United States, must actually reside within the delivery of the office for which the application is made, must have resided for at least two years next preceding the date the vacancy occurred, must be in good physical condition, and must meet the age requirements specified.

For offices having annual compensation from \$1,000 to \$2,200 per year applicants for examination must have reached their 21st birthday and must not have passed their 65th birthday on the day of examination.

For offices of the second class applicants must have reached their 25th birthday on the date of taking the oath, and for the first class, their 30th birthday. Those who have passed their 65th birthday are not eligible.

For offices paying from \$2,200 to \$4,000 per year applicants must show that for at least three years they have held responsible positions in which the principal duties involved the management of business affairs, or such positions in different branches of the postal service; applicants must also show that they have demonstrated their ability to meet and deal with the public satisfactorily.

ESCORT SENATOR OUT

Anti-Non-Partisan League Demonstration at a Climax.

Great Bend, Kans., March 15—Details of the anti-non-partisan League demonstration in Butler county Saturday, which reached a climax in the escorting from Great Bend of J. Ralph Burton, former United States senator, from Kansas, and the tarring of J. O. Stevie, and A. A. Parsons, officers of the League, has revealed that Stevie and Parsons were compelled to apply a coating of tar to themselves after their clothing had been removed. After they had been forced by the crowd of several hundred men to roll on the ground their clothing was returned and they were told to leave the county.

BIRTHDAY PARTY

An enjoyable evening was spent recently when a number of people

gathered at the home of Jonas Furney, along the Emmitsburg road, to celebrate the birthday of their son, William. Those present were Mr. and Mrs. Jonas Furney, Mr. and Mrs. James Crouse, Mr. and Mrs. Charles Haines, Mr. and Mrs. Curtis Fissel, Mr. and Mrs. Earl Stuller, Mr. and Mrs. John Joskoskey, Mrs. Samuel Vaughn, Mrs. Ida Leech, Misses Maude Crouse, Carrie Vaughn, Margie Lee, Lindora Lee, Clara Haines, Dorothy Carbaugh, Evelyn Stuller, Messrs. Charles Wolf, Edgar Leech, Russell Stuller, Harry Crouse, Lester Vaughn, Charles Haines, Earl Stuller, Melvin Stuller, Samuel and William Joskoskey.

REINSTATES STUDENTS

Faculty Will Review Poker Playing Case With Council.

At a special meeting Monday evening the Gettysburg College faculty decided to consider the petition of the student body and to reinstate the six men suspended for poker playing until they had reviewed the case thoroughly in joint session with the student council.

This decision of the faculty came as the result of several hours' consideration of resolutions which had been drafted by the students and subsequently passed at a mass meeting in Brua Chapel Friday night. These resolutions embody the fact that the faculty had failed to review the poker playing case in joint session with the student council although a by-law of the latter organization stated explicitly that such action must be taken before the suspension of any student. The resolutions further requested that the faculty revert the case to the student council for reconsideration. The initial decision of the council was merely a reprimand but it is understood they would increase the punishment if given the opportunity.

Tonight the faculty and council will convene for joint consideration of the case. Meanwhile the six suspended students have been reinstated pending further developments.

DRIVER SAVES LIFE

Leaps When Truck Plunges Over Rocks.

Harrisburg, March 15—By quick action J. B. Parthemore, of New Cumberland, saved himself from possible serious injury Monday afternoon when he jumped from his truck as it went off the road a short distance above Marysville and plunged to the tracks of the Pennsylvania Railroad fifty feet below. The truck was badly smashed as a result of the accident and the tracks were closed an hour. The accident occurred when Parthemore attempted to hold some boxes from slipping from the seat of his automobile, the car getting out of his control and going over the bank. The road at this point winds along the mountain side. A wrecking crew removed the debris.

ORGANIZE FOR 1921

Adams County Building and Loan Association Convened.

The Adams County Building and Loan Association stockholders held their annual meeting in the company's offices, Baltimore street, Monday evening. During the session P. A. Miller, Charles S. Duncan, Peter C. Stock, Edgar A. Crouse, W. I. Tyler, Dorsey Dougherty, Dr. E. H. Markley and John W. Brehm were elected directors for the ensuing year. After the stockholders had adjourned the directors convened and re-elected P. A. Miller president; Dr. E. H. Markley, vice president and Peter C. Stock, treasurer. Edgar A. Crouse was elected secretary.

(Medical Advertising) IN HARD LINES

"I could not work at all and had to take to my bed with a high fever due to intestinal indigestion, gases in my stomach, and pain in my right side. I had spent my last cent for doctors and medicine, which gave me no relief. I was in despair. A lodge brother gave me a bottle of Mayr's Wonderful Remedy, and the first dose relieved me. Thanks to this medicine I am now in the best of health." RECORD YEAR FOR HIGH SCHOOL FIVE

Won 17 And Lost 6. Outscored Opponents By 213 Points.

HUNTER MADE 121 GOALS

Blonde Captain Was Star of Aggregation. Coach Reynolds And Other Players Commended For Work.

(By Henry M. Scharf)

By piling up 716 points against the enemy's 503 and winning 17 out of 23 games the Gettysburg High School Basketball team of 1920-1921 earns the honor of being the best team turned out at the local institution in its history. The nearest approach to this record was in 1917-18, when the team of that season tallied 613 against their opponent's 398 and won thirteen and lost four.

Out of the six games dropped to teams against whom Gettysburg followers didn't expect victories but crushing defeats. Two games were dropped to Reading, who are far out of Gettysburg's class, and who are the leaders in the Pennsylvania Scholastic League. One was dropped to Shippenburg, Normal, a team advanced further in years and much stronger; York High, another member of the League, captured one on their home floor, as did York Collegiate Institute. The only unexpected defeat of the year was at the hands of the Camp Curtin High of Harrisburg on their floor. After being defeated here by a 40 point margin they administered a defeat to the locals on the Harrisburg floor by a four point margin. Victories were turned in against such strong teams as Lansford, Harrisburg, Tech Reserve, Waynesboro, York High and Shepherdstown College.

To Coach Walter D. Reynolds belongs the lion's share of the credit. He selected his combination with rare judgment and instilled a unity of play in them that enabled them to give such good account of themselves. With four of the players back again for the next two years and playing under his direction, great things are expected from future cage teams. His efforts are all for the interest of the team and the high school and it will be due to his work if the locals succeed in getting into the Pennsylvania Scholastic League, which includes Harrisburg Tech, York, Steelton, Lebanon, Reading and Lans-

ford. The project is not definitely settled but it looks very much as if the locals will be granted a place in that League.

The lone veteran that returned to Coach Reynolds this year was "Irish" Hunter who made the best record ever hung up by any one person in the history of the local institution. In twenty three games the blonde forward caged 121 field goals and 156 out of 333 fouls for a grand total of 398 points or over one half of the total of the entire team.

This season marked his fourth in a Maroon and White uniform and the second consecutive year that he led in the number of points scored. Although a little off this year in foul shooting his percentage is better than that of visiting shooters. He made 156 out of 333 for an average of forty seven per cent while enemy shooters made 174 out of 403 for a forty three per cent average. The college record of Captain Hunter, who is exceedingly popular in the high school as well as throughout the town, will be closely followed by his many followers.

In David Oyler and Raymond Rebert Coach Reynolds has a pair of flashy forwards. Although small in stature they are both accurate shooters and should make a good pair in another year under careful coaching. At center there remains Glenn Bream, who, while showing inexperience, played good ball this year. Next year he will be more confident as well as experienced and big things are expected from him.

At guard the work of Wilbur Weikert and William Scott were features. These boys, both heavily built, and with a good fighting spirit, kept the enemy scores down to a minimum. Their aggressive style of playing reminds one a great deal of the work of "Ducky" Armor and "Jim" Gilliland when they were terrors to opposing forwards two years ago. "Juney" Bream, the third guard of the squad shows promise. He has the fight and the good point of not losing his head in the thick of the game.

"Bob" Martin, substitute center and the only Senior beside Hunter, played a good brand of ball in the games in which he appeared. He has the build of an ideal center and out-jumped his opponent almost always. Lack of experience kept him from a regular position.

On the scrub list there remains "Bobbie" Miller, Glase, Gordon and Aughinbaugh, all of whom will be back next year to give stiff opposition to the Varsity in practice tilts.

Season scoring records are as follows: Hunter 398 points, Glenn Bream

111, Oyler, 109, Rebert 54, Scott 18, Martin 12, Weikert 10, Clifford Bream 2, Miller 2.

BASEBALL ON STAGE CENTER

Will Be In Limelight Continuously For Six Months.

"Basketball," which occupied the center of the High school athletic stage from the opening act with Reading in that city December 10 until the finale with Shepherdstown here last Thursday, withdrew from the spotlight Monday afternoon to make way for the newer and more popular act, "Baseball." Forty High School players including nearly all of the 1920 Varsity were on hand at the Playground diamond to take part in ushering in the new act.

This act of 1920-1921 athletic program will be on the stage continually from now until next September when "Football," long since retired to the dressing room for a ten month stay, will don his fresh make up and re-enter from the left wing. By that time it is expected that the audience of sportsmen will be yawning and stretching at the long appearance of "Baseball" and will greet the new arrival with great enthusiasm.

OWNER PROCURES STOLEN TRUCK

Pittsburgh Firm Representative Leaves Here With Abandoned Car. Boys Wanted.

W. A. Flowers, representing the Valley Plumbing Company, of Pittsburgh, left Gettysburg on Monday with the Ford truck which was stolen in that city two weeks ago and abandoned on the Lincoln Highway near New Oxford.

Three boys suspected of the theft are the object of a search being conducted in New York at the direction of the Pittsburgh firm.

According to the representative of the Pittsburgh company, these three boys who were in the employ of the firm stole the Ford truck and proceeded east along the Lincoln Highway until they got stuck near New Oxford where they left the car along the road to become the object of curiosity among travelers along that route.

One morning last week Sergeant Merrifield and Private Albright, local state troopers, started toward New Oxford to procure the abandoned car which had been called to their attention. They did not have to proceed further than the lower end of York street, Gettysburg, where they found the truck standing along the curb. It had evidently been put into use by some pedestrians desiring to go west.

HEADS TYRONE SCHOOLS

Professor W. W. Eisenhart, Adams Native, Gets Good Position.

Professor W. W. Eisenhart, a native of Abbottstown, who began his teaching career in Adams county, today assumed his new duties as superintendent of school in Tyrone, Blair county.

Since leaving this county Professor Eisenhart has served as superintendent of the Morris township schools in Clearfield county for twelve years and as superintendent of the Clarion schools for three years. Last summer he took up resident work at State College and University of Pennsylvania, receiving his master's degree from the latter institution February 22. Last Friday he was unanimously elected head of the Ty-

rone schools. His new position is considered one of the best in central Pennsylvania in school circles.

He succeeds Professor Haiston, known in Adams county as a representative of the American Book Company.

Purina Chows Save Baby Chicks

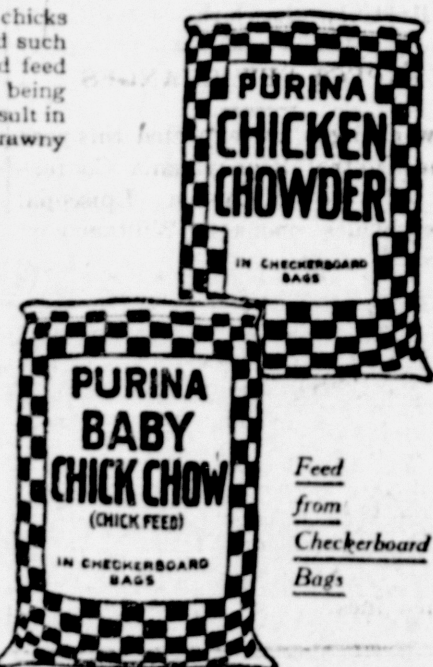

DON'T try to raise these tender chicks on grains, stale bread, meal and such grain products, any more than you'd feed a baby cornbread. Such rations, being deficient in protein and minerals, result in bowel trouble, slow feathering and scrawny development.

Chicks Saved Pay Feed Bill

Suppose Purina Chows saved just two more chicks out of every dozen hatched. That alone would pay your feed bill. But Purina Chows do more than just save chicks.

Double Development Guaranteed

Purina Chows are guaranteed to make your chicks grow twice as fast as grain feeds or you get your money back. Don't you owe it to yourself and chicks to call us up or drop in?

THE GREATEST FARMER IN THE WORLD

One-fourth of the wheat we grow is the result of the researches of the Government. After years of untiring experiment and investigation, the Government, through the Department of Agriculture, was enabled to introduce into this country the remarkable Durum wheat through which our production has been increased fully twenty-five per cent. This has been only one of many surprising but little-known accomplishments of the Government, which are covered in the interesting series of stories for which we have the exclusive right of distribution in this community.

We'll send this literature to you each month without obligation on your part if you will ask for it.

SAVE MAN FROM BULL

Dogs Rescue Man From Vicious Animal.

With only a pen knife to defend himself against a savage bull, Burrell Anderson, living near Delta, York county, probably would have lost his life had not two dogs come to his rescue. The bull, belonging to Joseph Dick, attacked Anderson in an open field and threw him to the ground. The animal had been dehorned, but it kneeled upon its victim and endeavored to crush out his life while Anderson vainly tried to cut the bull's throat with his knife.

The knife had been knocked from his hand and he was fast losing strength when a hired man on the farm noticed the conflict and released two dogs. They sprang to the rescue and while they worried the bull Anderson scrambled across the fence to safety. He was not badly hurt.

TO HONOR LUTHER

Anniversary of Diet of Worms Will Be Observed.

Arrangements are being made for a general celebration in Harrisburg Sunday evening, April 17, of the 400th anniversary of Martin Luther and the Diet of Worms.

A meeting will be held on that evening in one of the large halls in Harrisburg. The Lutheran ministers and the Lutheran Brotherhood Central of Harrisburg and vicinity have appointed committees to arrange for a speaker and to provide suitable music for the occasion. It is also being planned to hold suitable services in every Lutheran church at the morning service.

UPKEEP OF ROADS LESS

Bids for enough material made out of oil, tar and the like to surface 1800 miles of State highway have been opened at the State Highway Department, and contracts will be let within a few days at rates which will run anywhere from a cent to a cent and a half a gallon below what the Commonwealth had to pay in 1920. It is estimated the total saving due to the fall in prices will run close to \$90,000. The quantity bid upon is the largest ever arranged by the State.

SALE REPORT

A large crowd attended the sale of Charles Shultz, Route 4, Gettysburg, Thursday. The total receipts amounted to \$2250. The highest horse brought \$175 and the highest cow \$58. A pair of mules sold for \$394, a binder for \$190 and a drill for \$101. F. F. McDermitt was the auctioneer and John Hartman, the clerk.

DIFFER ON POSTMASTERS

Civil Service Plan Of Wilson May Be Retained.

Washington, D. C., Mar. 15—There apparently is a wide divergence of opinion among House Republicans as to what should be done with the order of former President Wilson placing postmasters under the civil service. Replies to a questionnaire sent by Representative Fess, Ohio, chairman of the Republican Congressional Committee, it was said yesterday, contain suggestions ranging from restoration of the old system to retention of some kind of civil service principle.

The replies are being tabulated and will be laid before Postmaster General Hays, who is expected to take them with him when he talks the situation over with President Harding. Hays has given no indication of what recommendation he will make to the President, and a final decision is not expected for some weeks.

Retention of the civil service principle in whatever plan finally is worked out, is expected by some Republican leaders. Great numbers of applications for post office appointments are being received by Senators and Representatives as well as by the Postmaster General.

MASCOT GETS JOB

Washington, D. C., March 15—Cornelius D. Vargas, who came to the United States at the close of the Spanish-American war as mascot of the Fourth Ohio Infantry Regiment, is going back to his home town of Guayama, Porto Rico, soon to serve as postmaster.

His nomination was sent to the Senate yesterday by President Harding, who was a member of the Ohio Senate when a special act was passed allowing the youngster to be admitted to the Home for Orphans of Soldiers and Sailors at Xenia.

Vargas is now employed in the post office at Columbus, O., and he is the first postmaster to be named by Mr. Harding.

MAY GET LANDING FIELD

The possibility of establishing an aero landing field at York was discussed at the meeting of the executive committee of the Chamber of Commerce Monday afternoon. The matter was considered from every angle and it was decided that such a station at York would prove an asset to the city. An automobile parking space will be projected in connection with the aero station.

LAFAN IMPROVED

CHILD DIES IN CRASH

Big Car Sideswipes Light One Near Reisterstown.

A six-year-old child was killed and three other children, their parents, and two young women, seven in all, were seriously injured when a high-powered gray automobile, which afterward vanished, overturned a small touring car, on the Reisterstown Turnpike, near Finksburg, Carroll county Sunday night. All the victims were pinned under the wrecked machine, and the top of the dead boy's head was severed as he was catapulted through the windshield.

His parents, who were taken to their home in Baltimore, immediately afterward, are still unaware of the boy's death, believing him to be in a hospital.

The dead: Wilbur F. Fisher, six years old, 3534 East Fairmount avenue.

BIGLERVILLE

Biglerville—Mr. and Mrs. G. W. Koser spent the week-end in Harrisburg.

C. William Duncan, of Gettysburg, was a week-end visitor in Biglerville.

Mrs. Earl Fohl was a recent visitor in Gettysburg.

JURY SPLIT; MOB HANGS

Versailles, Ky., March 14—Richard James, a negro, charged with the murder of Ben T. Rogers and Homer Nove, at Midway, this county, on October 8, last, was taken from the Woodford county jail by a mob early Sunday morning and hanged from a tree, two miles from this city.

The mob, composed of about fifty men, came to Versailles between one and two o'clock yesterday morning, by automobile. A guard was placed around the jail and four men went to the door, aroused John T. Eager, took his keys, and went to the negro's cell, where they overpowered the prisoner after a short struggle in which a blackjack was used by one member of the quartet. James was taken in a machine to the intersection of the Frankfort and Midway pikes, two miles from Versailles, and hanged to a tree.

Why Our Foreign Trade Is Important to the Farmer

A MONTANA WHEAT FIELD—AMERICA EXPORTED \$808,471,226 WORTH OF WHEAT STUFFS IN THE LAST FISCAL YEAR.

A SECTION OF NEW YORK HARBOR—THE GREATEST PORT IN THE WORLD—THE PROSPERITY OF AMERICAN FARMERS DEPENDS LARGELY ON KEEPING OUR SHIPS BUSY.

A MASSACHUSETTS TRUCK FARM—WHOSE OWNER MIGHT FAIL TO LIFT HIS MORTGAGE BECAUSE FLAX CEASED TO COME FROM RUSSIA.

A FRENCH TEXTILE MILL—IMPAIRMENT OF THIS INDUSTRY BY GERMAN INVASION REDUCED THE AMERICAN MARKET FOR RAW MATERIALS.

COTTON ON THE GALVESTON WHARVES—AMERICAN COTTON EXPORTS DECREASED 2,250,000 BALES IN 1920.

By WILLIS H. BOOTH, Vice President Guaranty Trust Company of New York.

NO GROUP of our citizens is more directly affected by the state of our foreign trade than the farmer. This is daily emphasized as the world applies itself to a study of its difficulties and seeks remedies. With the coming of a war that involved the great producing nations, we began to see how closely the interests of each were linked with those of all others. The realization of that fact is now complete. In the present stage of human progress international, commercial and financial relationships are not merely desirable on the ground of convenience and comfort; they are absolutely necessary if life is properly to be sustained and the future of civilization made secure.

No nation, no community, no individual can live alone. Economic interdependence is such that distress or disaster in one country is inevitably reflected in every other country. When Russian markets fall, for example, the industries of Great Britain, of South America, of the United States, feel the effects. When the great sources of raw materials fail or the free flow of such materials throughout the world is seriously interfered with then industrial countries must close their plants and workmen must leave their machines.

Thus a Massachusetts truck farmer, for instance, might fail to lift the mortgage on his half dozen acres because flax ceased to come out of Russia. Because there was no flax Irish linen manufacturers turned away their operators. These in turn could not buy shoes, and that fact swept across the Atlantic

to New England. These shoemakers left their lasts and curtailed their purchases at the grocery store, and the grocery man, in turn, cut down his receipts of vegetables from the truck-farmer.

It may be that the truck-farmer's analysis of the situation would extend no further than the city which had been his market, because the effects of a flax shortage in Russia were communicated to him slowly and by indirection. Had he been a producer on a large scale, however, one who had built up a foreign market and maintained it as the source of that marginal profit through which his domestic business was buttressed and stabilized, his understanding of primary causes would have been swift and sure. Whether the effect comes slowly or swiftly, directly or indirectly; whether it is clearly understood or not, eventually and inevitably it does come. And that is why the American farmer cannot escape a direct interest in what is happening in Europe, in the financial crises in Japan and Cuba, in the depression in Australia and South America.

The part which the United States played in the world-wide interchange of commodities before the war was impressive, but today, because of the peculiar position in which the war left us with respect to the rest of the world, the amount and value of our foreign trade is beyond anything ever before dreamed of.

In the year before the war the total value of the foreign trade of

Great Britain was nearly \$7,000,000,000, that of Germany was about \$5,000,000,000 and that of the United States was nearly \$4,260,000,000, a total of approximately \$16,000,000,000. In the fiscal year ended June 30, 1920, the foreign trade of the United States alone was \$13,729,061,000, and for the nine months of the calendar year ended with September last the total value of our foreign trade was \$11,948,000,000, of which exports were valued at \$5,082,000,000 as compared with \$5,866,000,000 for the corresponding period in the preceding year, while imports totaled \$4,358,000,000 as compared with \$2,607,000,000 for the corresponding period ending with September, 1919.

The enterprise of the American farmer, the dependence of the world upon him, his interest in maintaining and extending his markets, is written all through this record of America's foreign trade. Convincing as the figures of pre-war years are as to outward bound trade routes that have their beginnings in the broad acres of the United States, those of last year are fairly astonishing in their size and in their implications.

The value of breadstuffs exported from this country during the fiscal year ended June 30, 1914, was \$105,302,385; in the fiscal year ended June 30, 1920, the value of breadstuffs so exported had risen to \$808,471,226. This increase did not represent an increase in values only, but also in the amounts. In 1914 there were exported 22,333,775 bushels of wheat, valued at \$87,933,430; in 1920 the number of bushels was 122,430,724 and the value \$306,163,023. In 1914 there were exported 11,821,461 barrels of wheat flour, valued at \$54,454,175; in 1920 the amount was 21,651,261

barrels and the value was \$240,574,670.

The most notable of the very few reductions in amounts of exports is that in the amount of cotton exported in 1920, a decrease of about 2,250,000 bales, although this decrease was amply offset by the rise in price. What it means to our Southern cotton planters when the textile mills in Central Europe are running at only 30 per cent of normal can be realized by recalling that in 1914, when their output was normal, we sent to Germany at the then existing low prices \$182,000,000 worth of cotton and to Aus-

tria-Hungary \$7,000,000. France's great northern industrial area, which was deliberately devastated by the Germans to kill future competition, was full of textile mills, which bought in 1914 \$73,500,000 worth of cotton from the United States. England, the same year, imported cotton to the value of \$230,000,000; Italy, \$34,250,000, and Spain, \$19,200,000.

In the fiscal year of 1913-14 the total value of merchandise exported from the United States was \$2,829,684,025; in the fiscal year 1919-20 the value was \$7,950,429,180, an increase of \$5,020,745,155. We cannot hope to continue exporting at such a pace in the face of changes so adverse to other countries as to make continued buying impossible or, if persisted in, ruinous. On the other hand, we know that a sustained period of reduced consumption or non-consumption of any product by large numbers of people constitutes a loss that can never be regained. Non-consumption in our foreign markets means an accumulation here and consequently an unnatural lowering of prices which would produce stagna-

tion in industry. We are approaching a time when such non-consumption of American goods in foreign countries will have to be reckoned with. Already our exports are falling off and cancellations of contracts are reported from many parts of the world.

America's great task is to assist other nations to a position where they can resume production and distribution of the products with which in other days they paid for imports from this country. We have the food and raw materials and machinery which the remainder of the world, and particularly Europe, urgently needs. And we have also the foundation for such an extension of credit as will make the purchase of these requirements possible.

Under the Federal Act known as the Edge law it is possible to organize corporations, supervised by the Federal Reserve Board, by means of which long-term investment funds of American capital can be converted into funds to finance immediate exports from the United States. A natural question arises as to why the ordinary commercial banks do not arrange for such vital financing. It must be pointed out that no commercial bank can afford to tie up the money of its depositors, as they are essentially demand deposits and must be held liquid. When used to finance foreign trade the funds of the commercial bank must be employed in such a way that it is reasonably certain that the transactions which they cover will be self-liquidated within three or four months. It is obviously not ordinary commercial banking but true investment that is involved when periods longer than a few months are in question.

But if anything is to be done with this credit machinery, there must be created an interest in foreign investments on the part of our people. A very widespread interest in this subject is required, and every class of savers or investors must somehow be reached and convinced that a portion of our capital devoted to foreign investment purposes is now essential to preserve the prosperity of the world.

Farmers have prospered. As investors they have always preferred to place their surplus funds close at home. Can any large number of them be stimulated to study the international situation? Can they be convinced that it is a matter of deep and present concern to them? When Edge Law debentures, based on foreign securities and issued by responsible American banking groups, are offered to the public will they pass them by? We have a conviction that when they understand what they mean the farmers will do their full share and they will see as clearly as any other class that the task of getting the world back on a sound, stable basis is just as important as was the winning of the war and, considered from the viewpoint of enlightened selfishness, is imperative if the farmers would preserve their own prosperity as well as that of the country.

changes made the congressional district the unit for election, each of the districts to elect two delegates and each voter to vote for but two. The Senatorial district was originally specified. The provision for the governor to appoint the delegates at large remains.

Two bills designed to make the Brooks' high license law conform to the constitution of the United States and laws passed there under to regulate sale of intoxicating liquors were presented by Senator H. W. Schantz, Lehigh. They were sent to the law and order committee. They are the first liquor bills to appear in the Senate this session.

To provide means for continuing the gigantic road construction program launched at the beginning of the Spraul administration, Senator Buckman introduced in the Senate Monday night a bill authorizing a loan of \$50,000,000 through the medium of an amendment to the Constitution. A similar bond issue was authorized by the Legislature four years ago and approved by the people in the election of 1919.

Before the money that is contemplated to raise through the Buckman bill finds its way into the highways, it will be necessary for two Legislatures.

to pass on the measure. After that formality has been gone through the bill must be passed upon by the voters. Should the present and the succeeding session of lawmakers pass upon the bill it will be submitted to the voters for ratification at the fall election in 1923.

By the time the Buckman bill has been finally passed upon it is estimated by highway officials that the present bond issue will have been exhausted. The proposed issue, unless the lawmakers give it a negative reception will then be available. In this manner it is hoped to continue the highway program without serious financial interruption.

Big Proposition For Voters

Should the Legislature of 1921 and 1923 adopt the Buckman resolution and the resolution of Representative Whitaker for a \$35,000,000 bond issue to cover the cost of a soldier bonus, the voters of the State will be asked to approve or reject a total loan of \$85,000,000 at one election. The House has already approved the Whitaker resolution and it is now in the Senate Military Affairs Committee.

Commissioner Sadler, of the Highway Department, stated Monday that it will require at least \$500,000,000 to complete the road program mapped out. Of the present issue, \$23,800,000 has been expended.

Wooltex Knockabouts for outdoor wear

Once upon a time a coat had to serve all purposes for dress, for everyday, for sports wear, for rainy weather. There are plenty of such versatile coats and mighty serviceable they are. But more and more is there a demand for the special coat for the special occasion.

For outdoor wear, for motoring, for bad weather, one needs a rough and ready coat. No clothes that we know of quite meet this need as well as the new

Wooltex Knockabouts
we have for you.
Just tell us what your wants
are. We will see that you are
supplied with the appropri-
ate clothes for the occasion.

To Reduce Dangerous Varicose Veins

People who have swollen veins or bunches should not wait until they reach the bursting point, which means much suffering and loss of time, but should at once secure from any reliable druggist a two-ounce original bottle of Moone's Emerald Oil (full strength).

By using this powerful, yet harmless germicide treatment improvement is noticed in a few days and by its regular use swollen veins will return to their normal size, and sufferers will cease to worry. Moone's Emerald Oil treatment is used by physicians and in hospitals and is guaranteed to accomplish results or money returned.

It reduces all kinds of enlarged glands, goiters and wens and is used exclusively in many large factories as an unfailing first aid to the injured antiseptic. Generous sample on receipt of 15 cents, silver or stamps. International Laboratories, Rochester, N. Y. Your druggist can supply you.

Your Bank Book Bonus

Twice each year—on May first and November first—four per cent interest is automatically added to the accounts of our savings depositors.

It is not necessary for them to call. No "renewals" need be made. Your deposits are entered regularly in your pass-book.

A Great Discovery

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists.

As a remedy for those easily recognized symptoms of inflammation caused by uric acid—as scalding urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly "An-uric" (anti-uric acid) acts; the pains and stiffness usually disappear.

"Anuric" is the discovery of Dr. Pierce of Buffalo, N. Y.

Step into any drug store and ask for a package of "Anuric" which is many times more potent than lithia.

"THE FURNACE"

Marriage is Like a Furnace

When two people marry without love—then life becomes a furnace. Instead of a sacrament it becomes a acridity or a sacrifice. Jealousy, hatred, revenge feed its flames until it either destroys or purifies.

The great William D. Taylor production of "THE FURNACE" is one of the most tremendous presentations of this question yet conceived on the screen. You will be profoundly moved by the struggle of the people in "THE FURNACE" for happiness and love.
